

Safe School Policy – (Anti-Bullying & Anti- Harassment)

Policy

St. Patrick's Primary School will not tolerate any action that undermines a person's right to feel safe. At the school every person has this right and any person who bullies or harasses another is denying them the right to feel safe. The Staff and school community will implement appropriate strategies and processes to build and maintain a safe school environment.

Rationale

At St. Patrick's Primary School, the community is committed to ensuring a caring environment which promotes personal growth and positive self worth for all. It will not condone any form of bullying or harassment behaviour. The Safe School Policy is to ensure the safety of all members of the school community, as outlined in our Pastoral Care Policy.

Our Commitment to Diversity

All members of our school community will endeavor to promote awareness of cultural, religious, gender and political diversity. We seek opportunities to foster inclusiveness for all people and to promote the dignity of the human person. Our policies and programs will acknowledge the rich diversity of Australian culture and we will embrace each member of our school community regardless of ability, belief, gender affiliation or practice.

Our Commitment to Child Safety

All students enrolled have, and any child visiting has a right to feel safe and to be safe. The wellbeing of children in our care will always be our first priority. We have zero tolerance for child abuse and we will create a child safe and child friendly environment where children are safe and free to enjoy life to the full without any impediments to their safety.

Scriptural Context

'All members may be concerned for one another. If one member suffers, all members suffer: if one member is honoured, all members share this joy. You then are the body of Christ.'

(1 Corinthians 12:25-27)

Definitions

“Bullying is repeated oppression, psychological or physical, of a less powerful person by a more powerful person or group of persons” (1996, Ken Rigby).

“Bullying involves a pattern of behaviour that incorporates five key elements. There is an intention to hurt, harm or make feel powerless and the recipient is distressed by what is happening. It involves an imbalance of power and can take many forms – physical verbal, gesture, extortion and exclusion. Pleasure is derived from the act and it is a repeated pattern of behaviour over time” (2005, Therese Sheedy).
